List your location with Lisa Locations!

The film industry is strong in Louisiana and surrounding states and it can be fun and often profitable to have them film at your location. The productions are fully insured and by submitting your location it does not obligate you or your location in anyway. This will just make me aware of your location, allow me to add the details and photographs to my database, and supply me with contact information that will be needed in the event a production is interested in possibly filming at your location. When that happens, if it happens, I'll contact you then to discuss the possibility, the feasibility, and the needs of the production. All types of locations are needed, such as commercial and private, urban and rural, residential and wilderness, the new and the old, common and uncommon. Remember, nothing is too odd or insignificant to submit.

Many clear photographs need to be submitted with this form. Please be generous in numbers, views, and include 360° shots. Show the good, the bad, and the ugly because you never know which view will catch the eye!

Please try to supply as much information as you can below. You will not be contacted unless we have a production that may want to use your location unless you choose to have receipt of your mail-in submission confirmed.
